

Applicant's newly presented apparatus claims (i.e., claims 30-32) were withdrawn from further consideration by the Examiner on grounds that Applicant previously elected the method claims. Claims 1-13, 18-26, and 33-34 remain pending.

Further, election of species of Applicant's claimed invention is now required. The Examiner states that the inventions of claims 21-26 are generic to a plurality of disclosed patentably distinct species comprising the following:

- group 1 (i.e. -the invention which is claimed in claims 1-5);
- group 2 (i.e. -the invention which is claimed in claims 6-13);
- group 3 (i.e. -the invention which is claimed in claim 18); and
- group 4 (i.e. -the invention which is claimed in claims 19-20, 33-34).

Applicants elect claims 6-13, Group 2, with traverse.

The Examiner has made an error in the fact that all claims within this application are not drawn, species of claims 21-26. Claims 1-3, 6, 10-12 and 18-20, are also generic, and do not name a fluorine, bromine, or chlorine species of claims 21-26.

Applicants respectfully request withdrawal or modification of the restriction requirement to permit prosecution of claims 1-5, 18-20, and 30-34, in addition to claims 6-13 and 21-26.

Respectfully submitted,

Keith M. Tackett
